RE: Account # 0225-6

Dear Mr. Wrathell:

This letter serves as an “Addendum” to your current waterway management program in accordance with the terms and conditions of your Master Agreement.

In response to your request, **Aquatic Systems, Inc.** will return sites # 2, # 4 thru # 8, #17, # 19, # 20 & # 37 to the full treatment protocol of algae, submersed and floating aquatic weed, and shoreline grass and brush control at an additional price of \$226.00 monthly. Control of algae and submersed aquatic vegetation will be made in such a manner as to provide an aesthetically pleasing appearance on the surface of the ponds without denuding the lake of these plants.

In addition, ASI will add control of invasive grasses and brush in the littoral areas of sites # 6, # 7 and # 17, at an additional price of \$140.00 monthly.

Effective upon receipt of this signed addendum thru May 31, 2011, billing will increase from \$2,299.00 to \$2,665.00 monthly.

Treatment schedule will remain the same with treatment as required (four times monthly).

Kindly sign this letter and return to us by April 23, 2010, so we may begin addressing the existing algae and aquatic weed problems as soon as possible.

If you have any questions, please do not hesitate to contact me at 1-800-432-4302.
