

Grand Haven Community Development District (CDD) COVID-19 Closures

In an effort to minimize the impact of the Coronavirus (COVID-19) within the community, the CDD has made the decision to temporarily close all CDD facilities and suspend all recreational programs and activities in the interest of public safety.

These closures and suspension of recreational programs and activities will remain in effect until further notice, at least until further guidance and recommendations are provided by local, state, and federal agencies, and in keeping with the advisories and recommendations of local, state and federal health organizations.

The CDD initiated elevated cleaning services prior to the closures, and will implement further cleaning efforts prior to reopening the facilities. Additionally, the CDD initiated contingency plans, modifying onsite staff work schedules and travel requirements, in order to aid in safeguarding a healthy workplace.

The CDD continues to monitor the rapidly evolving COVID-19 situation, and remains in daily communications and/or monitoring of governmental agencies. As this situation continues to develop, the CDD will evaluate and make necessary changes to the temporary policies and practices during this declared "State of Emergency".

The CDD urges everyone to continue following basic infection prevention guidelines. For additional Coronavirus Disease (COVID-19) information, among a myriad of resources, residents are encouraged to utilize the following informational tools:

- Florida Department of Health COVID-19 Call Center - 1.866.779.6121
- Flagler County Department of Health -386-437-7350
- Florida Department of Health - www.floridahealth.gov/diseases-and-conditions/COVID-19
